### HOBBIES AND INTERESTS

#### Soccer

Since I was in kindergarten I was obsessed with rolling balls. Anything that can roll takes my attention. Well, I was not the best in soccer at that time. However, I practiced it for as long as 8 hours per day. I don't know why but, It wasn't exhausting I was enjoying it. I as the only boy in my family I couldn't find anyone to play with; my parents had work and my sisters don't like soccer. I always hit the ball to the gates of our home which was made of steel that made noise to our neighbors. They have always cursed me. In middle school I always played for 5 hours minimum trying to improve dribbling. I just wanted the crowd to shout for me as I score imaging that day and night. This hitting ball thing has helped me get out of uncomfortable feelings and depression.
